SAMPLE - FICTIONAL TEST DOCUMENT - NOT FOR CLINICAL USE

HRA and Health and Care Research Wales (HCRW) Approval Letter

Date: 6 May 2026

Dear Prof. Daniel Whitcombe,

Study title: RELAPSE-STOP: A Phase III, Randomised, Double-Blind, Double-Dummy Study of Ovalitinib (MNS-2207), an Oral BTK Inhibitor, versus Teriflunomide in Adults with Relapsing Multiple Sclerosis
IRAS project ID: 1009871
Protocol number: MNS-2207-301
REC reference: 26/YH/0142
Sponsor: Meridian Neurosciences Ltd

I am pleased to confirm that HRA and HCRW Approval has been given for the above-referenced study, on the basis described in the application form, protocol, supporting documentation and any clarifications received. You should not expect to receive anything further relating to this application.

Participating NHS organisations

Each participating NHS organisation in England and Wales should confirm capacity and capability before the study starts locally. Sites in Scotland follow NHS Research Scotland permissions.

Site	Principal Investigator
Aire Valley Neuroscience Centre, Aire Valley Teaching Hospitals NHS Foundation Trust	Dr Hannah Okafor
