Participant Information Sheet and Informed Consent Form

RELAPSE-STOP: A Phase III, Randomised, Double-Blind, Double-Dummy Study of Ovalitinib (MNS-2207), an Oral BTK Inhibitor, versus Teriflunomide in Adults with Relapsing Multiple Sclerosis

Version: 2.0, 12 March 2026
IRAS ID: 1009871
Sponsor: Meridian Neurosciences Ltd

1. Why is this study being done?

We are testing whether ovalitinib, a new tablet, reduces MS relapses more than teriflunomide, a medicine already used in the NHS.

2. What would taking part involve?

You would take part for about 100 weeks and come to the hospital 12 times. Five of the visits include an MRI scan and take about 5 hours. Other visits take 2 to 3 hours.

3. What are the possible risks?

Possible side effects include headache, nausea, raised liver enzymes and an increased risk of infections. Your liver blood tests will be checked regularly.

4. Will I be paid for taking part? Will my expenses be covered?

Yes. You will receive a payment for each visit you complete and your reasonable travel costs will be reimbursed. You can claim through the CareCompanion app:

- Visit payment: £40.00 for each completed on-site study visit (Screening to Safety Follow-up), paid by bank transfer.
- MRI visit supplement: an additional £25.00 for each visit that includes an MRI scan (Baseline, Weeks 24, 48, 72 and 96), in recognition of the longer visit.
- Mileage: £0.45 per mile for travel by private car, up to 150 miles per return journey. No receipt is required; the site confirms the distance.
- Public transport: the actual cost of standard-class rail, bus or tram fares, receipt or ticket required.
- Taxi: only where agreed in advance by the site (for example for participants with limited mobility), up to £60.00 per visit, receipt required.
- Car parking: actual cost up to £15.00 per visit, receipt required.
- Meals and refreshments: up to £12.00 per visit day for visits lasting more than 4 hours, receipt required.
- Overnight accommodation: up to £120.00 per night, maximum one night per visit, when the one-way journey is longer than 2.5 hours; must be approved by the site in advance; receipt required.
- Companion or carer: where a participant needs help to attend (for example an EDSS score of 6.0 or more), the travel and meal costs of one companion are reimbursed at the same rates.

Your study site may have slightly different local rates, for example for parking; the research nurse will tell you. Claims should be made within 90 days and are normally paid within 30 days. Payments may need to be declared for tax or benefits purposes.

5. Consent

- I confirm I have read and understood this information sheet and have had the opportunity to ask questions.
- I understand that participation is voluntary and that I am free to withdraw at any time without giving a reason.
- I agree to the study team accessing medical records relevant to the study.
- I agree to receive study payments and reimbursements by bank transfer through the sponsor's

payment provider.
