SAMPLE - FICTIONAL TEST DOCUMENT - NOT FOR CLINICAL USE

Pennine Research Ethics Committee

Date: 21 April 2026

Dear Prof. Daniel Whitcombe,

Study title: RELAPSE-STOP: A Phase III, Randomised, Double-Blind, Double-Dummy Study of Ovalitinib (MNS-2207), an Oral BTK Inhibitor, versus Teriflunomide in Adults with Relapsing Multiple Sclerosis
REC reference: 26/YH/0142
IRAS project ID: 1009871
Protocol number: MNS-2207-301
Sponsor: Meridian Neurosciences Ltd

Final opinion

On behalf of the Committee, I am pleased to confirm a favourable ethical opinion for the above research on the basis described in the application form, protocol and supporting documentation, subject to the conditions specified below.

Conditions of the favourable opinion

- Management permission must be obtained from each host organisation (HRA Approval and NHS confirmation of capacity and capability) before the study starts at the site.
- Participant expenses and payments must be made as described in the approved information sheets; any change to the amounts requires a notification to the Committee.
- The Committee must be informed of any substantial amendment and of the end of the study.

Approved documents

Document	Version	Date
Protocol	2.0	12 March 2026
Participant Information Sheet and Consent Form	2.0	12 March 2026
Participant Expenses and Payments Policy	1.1	12 March 2026

Yours sincerely,
Dr Margaret Ellwood (fictional)
Chair, Pennine Research Ethics Committee
