Parent / Guardian Information Sheet and Consent Form

LUMINA-NB2: A Phase II, Open-Label, Single-Arm Study of BPC-118 in Combination with Temozolomide in Children and Young People with Relapsed or Refractory High-Risk Neuroblastoma

Version: 1.2, 4 May 2026
IRAS ID: 1012446
Sponsor: Brightpath Children's Cancer Research

1. Why is this study being done?

We are testing whether BPC-118 given with temozolomide can shrink neuroblastoma that has come back or not responded to earlier treatment.

2. What would taking part involve?

Your child would have up to six treatment cycles of 21 days. Each cycle starts with a five-day stay in hospital. There are blood tests on Days 8 and 15 of each cycle, scans after cycles 2, 4 and 6, and follow-up visits every three months for two years.

3. What are the possible risks?

BPC-118 commonly causes pain, which is treated with pain relief during the infusion, and can cause fever, low blood pressure and changes in eyesight. Temozolomide can lower blood counts.

4. Will our family be paid or have expenses covered?

Your family should not be out of pocket because of the study. You can claim the following through the CareCompanion app:

- Travel by car: £0.45 per mile for the child and up to two parents or guardians travelling together. Journeys over 200 miles return must be agreed with the site in advance. No receipt required.
- Public transport: actual cost of standard-class fares for the child and up to two parents or guardians, ticket or receipt required.
- Taxi: only where agreed in advance by the site, up to £80.00 per journey, receipt required.
- Car parking: actual cost up to £10.00 per day, receipt required.
- Parent meals during inpatient admissions: up to £15.00 per day per family, receipts required.
- Accommodation for parents during inpatient admissions: free on-site family accommodation where available; otherwise a hotel up to £95.00 per night, approved in advance, receipt required.
- Childcare for brothers and sisters on admission days: up to £50.00 per day, receipt from the childcare provider required.
- Thank-you voucher: a £20.00 gift voucher for the child for each completed treatment cycle. This is a thank-you, not a payment for taking part.
- Loss of earnings is not reimbursed.

Your study site may have slightly different local rates, for example for parking; the research nurse will tell you. Claims should be made within 90 days and are normally paid within 21 days. Payments may need to be declared for tax or benefits purposes.

5. Consent

- I confirm I have read and understood this information sheet and have had the opportunity to ask questions.
- I understand that participation is voluntary and that I am free to withdraw at any time without giving a reason.
- I agree to the study team accessing medical records relevant to the study.
- I agree to receive study payments and reimbursements by bank transfer through the sponsor's

payment provider.
